在古代，国家安全战略通常被当作一种“将道”，是极少数精英的特权

In ancient times, national security strategy normally was considered as “the art of general”, which was a privilege possessed by the elites.

《孙子兵法》中包含了国家安全战略思想，成为影响中国国家安全战略的文化因素。如新中国军事战略严格遵守慎战和速战思想

The concept of how to make national security strategy, suggested by the Art of War, becomes a cultural factor affecting Chinese national security strategy.

制定国家安全战略需关注的问题

# Points of attention while making national security strategy

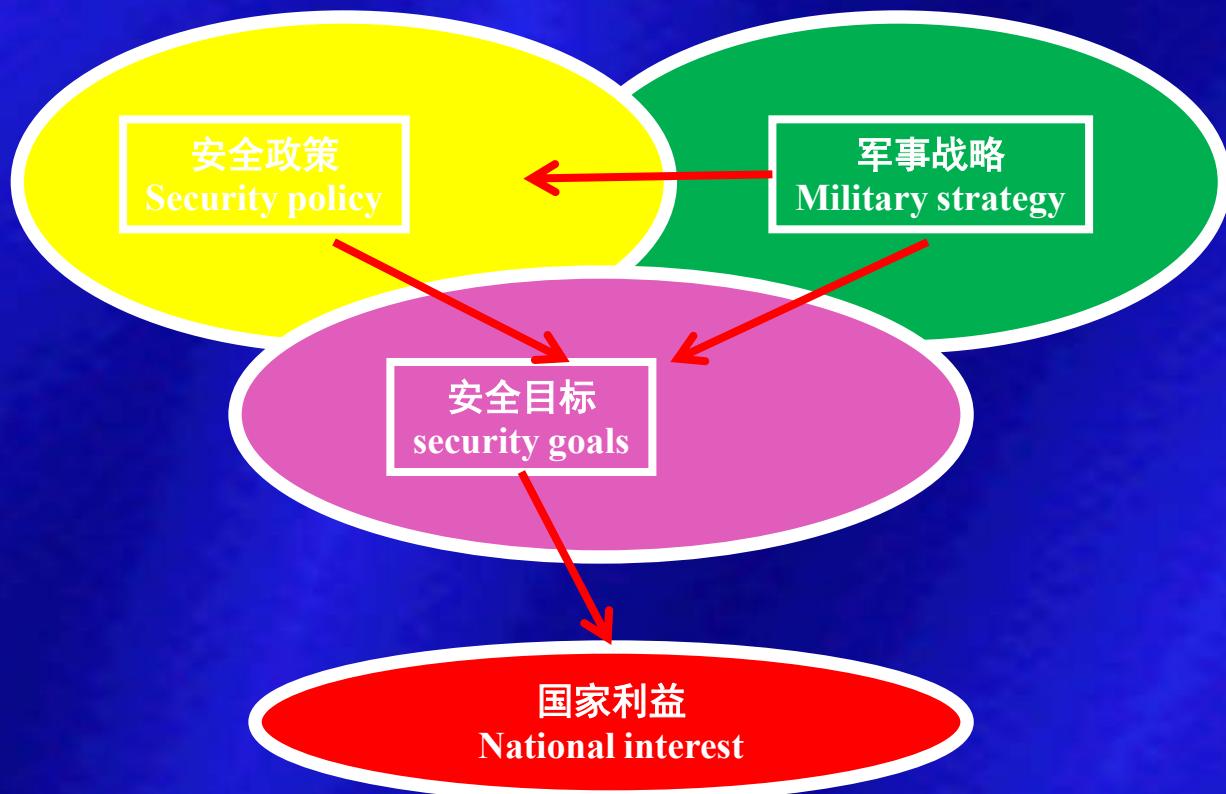

处理好安全目标、安全政策和军事战略之间的关系

## 1. Properly handle the relationship among security goals, security policy and military strategy

### III. Points of attention while making national security strategy

安全目标的确定以国家利益为基础

政策是行动准则，安全政策反映安全目标的内在要求

军事战略作为最重要的安全领域体现安全目标和安全政策

他们之间既相互联系，又各有侧重

**National interest is the foundation of setting the security goals.**

**Policy is the tenet of action and security policy is a further reflection of the inherent demands of security goals.**

**Military strategy reflects security goals and security policy.**

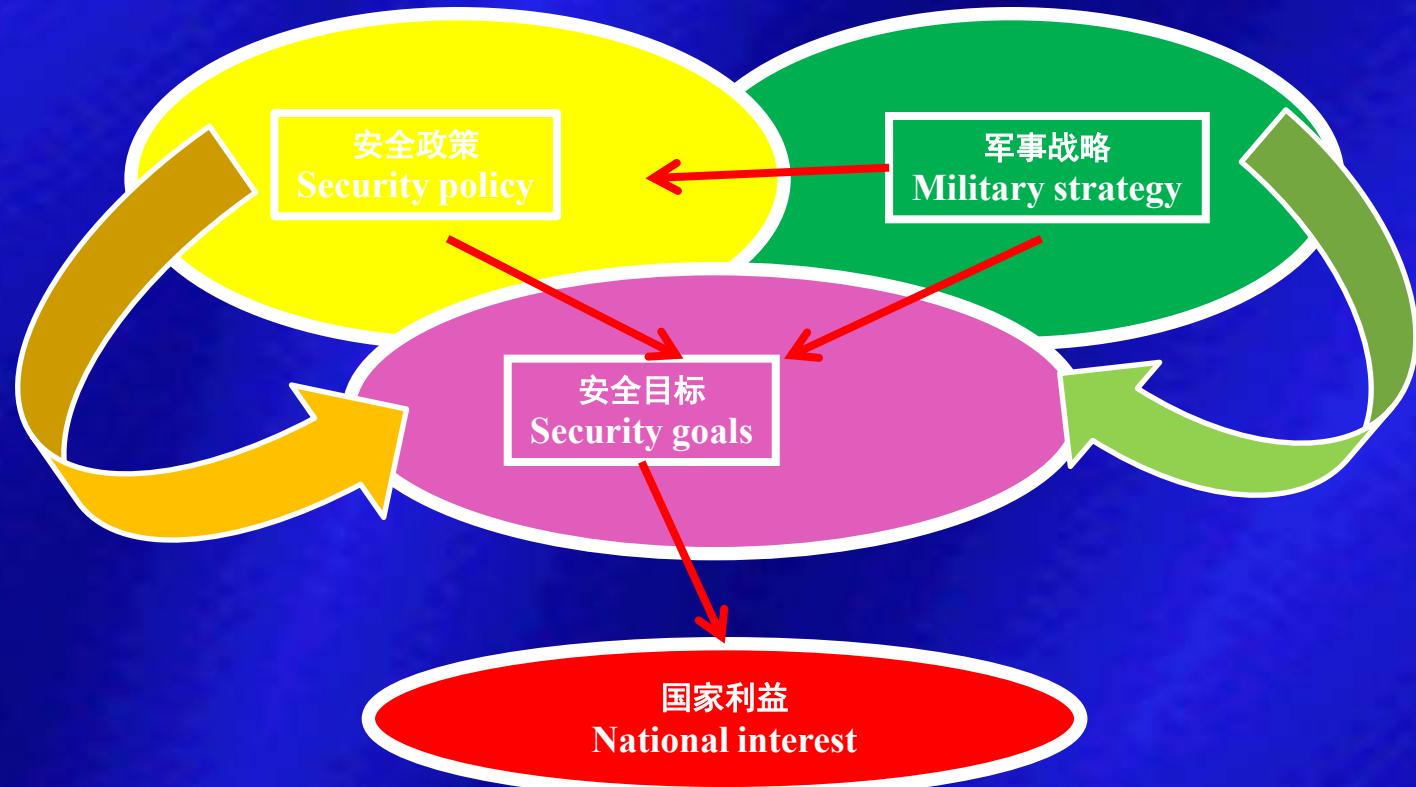

**They are interconnected with each and have different focuses.**

## 制定国家安全战略需关注的问题

### III. Points of attention while making national security strategy

国家安全的政策取向或军事战略的实施，会对国家安全目标的实现产生重大影响

National security policy priorities or military strategy implementation will exert great influence on achieving national security goals.

### III. Points of attention while making national security strategy

美国干预中东事务的不恰当政策以及军事手段均无助于达成其在中东的安全目标。

美国以“反恐”为名，过多干预中东地区事务，尤其是在以巴间和中东地区不同国家间搞“双重”标准，结果反而导致了中东地区局势的进一步动荡，使得美国的“大中东”战略目标的实现更加困难。

**US holds improper Middle East policy of intervention. Its military means will do no good to achieving its security goals in the Middle East.**

**Under the name of “anti-terrorism”, the US excessively intervened in regional affairs of Middle East and practised a double standard between Israel and Palestine, and between different Middle East countries. As a result, the Middle East situation has seen continued turbulences. And US finds it harder to achieve its “Grand Strategy in the Middle East.**

### III. Points of attention while making national security strategy

2010年底以来，北非和中东地区相继发生颜色革命，美国政府积极干预。这个干预过程仍在影响着巴以和平。

**Since the end of 2010, “Color Revolutions” have swept the Middle East and North Africa, and the US government has actively intervened in those revolution. Such intervention still influences Israeli-Palestinian peace till now.**

2013年8月下旬，传闻叙利亚政府军在大马士革郊区发动化学武器攻击，美国考虑对叙利亚进行军事干预。

**At the end of August, 2013, it was alleged that Syrian government force launched chemical attack in the suburb area of Damascus, and the US government thought about a military intervention against Syria.**

不恰当的干预给伊斯兰极端势力创造了条件。2014年6月以来，“伊斯兰国”快速崛起，成为影响中东局势的重要因素。

**Improper interventions brought about conditions for the Islamic extremists. Ever since June 2014, the Islamic State has took worldwide attention and become new and key factor in the Middle East situation.**

发挥好领导体制和组织运行程序的作用

## 2. The leading system and organization operational procedures should play their due role

要根据各国自身的实际，按照既有的决策程序，将各项工作都纳入规范的组织运行程序中，以提高工作效率

Based on each country's national conditions, every country should follow the set procedures of decision-making. They should integrate all works into standardized organization operational procedures, so as to raise working efficiency.

解决好因利益集团、民众、反对派别或同盟诉求产生的影响

### 3. Properly address the influence of concerns extended by interests groups, publics, oppositions or allies

不同利益集团、国内民众、反对派别或国家同盟，出于不同动机，都会对国家战略目标以及安全政策产生影响。国家安全目标切不可为某一集团利益所绑架。美国安全目标为庞大的军工集团绑架是造成美国频频发动战争的主要因素之一。

Due to different purposes, different interests groups, domestic publics, oppositions or allies would exert influence on national strategic goals and security policy. Therefore, such national security goals should never be manipulated by a certain interests groups. The US' national security goals were quite often manipulated by huge military industry groups.

### III. Points of attention while making national security strategy

基本的应对策略

Basic measures:

冷静看待来自不同社会团体、民众或派别（含同盟）的“特殊要求”，不被其左右基本立场

--Calmly treat “special demands” presented by different social groups, publics or other groups (including allies) with no biased position.

要关注相关诉求中的一些“合理因素”，积极汲取来自各方面的有价值咨询建议

-Pay attention to “reasonable factors” of related demands, and actively collect valuable advices from all aspects.

坚持个人参与安全战略制定的原则

- Adhere to the principle of individual participation in security strategy decision-making

## 结 论
